#### What is 0365?

#### Why O365 needs to be backed up?

- Protects against accidental or malicious modifications/deletions
- Need to be compliant with legal obligations for retaining data (especially communication data) for longer periods of time
- Even Microsoft agrees you need to backup O365

#### Section 6.b

b. We strive to keep the Services up and running; however, all online services suffer occasional disruptions and outages, and Microsoft is not liable for any disruption or loss you may suffer as a result. In the event of an outage, you may not be able to retrieve Your Content or Data that you've stored. We recommend that you regularly backup Your Content that you store on the Services or store using Third-Party Apps and Services.
